Blog

- The application I made using CSharp and SQLite database is a blog application where logged in users can comment on posts and create new posts.
- Tools Used:.NET Core, CSharp, SQLite

HemenBilet

✓ HemenBilet

- HemenBilet is a web application developed through teamwork that allows users to compare flight tickets and purchase tickets at the best price.
- Tools Used: CSharp, .NET Core, SQL, Design Pattern, Cursor

QuizShow ☑ QuizShow ☑

- The application I developed with CSharp form and Access database contains questions in many fields such as sports, history, geography and is available in easy, medium and difficult levels. At the end of the competition, scoring is done based on the number of correct answers.
- · Tools Used: CSharp, SQLite

NoteShareApp

✓ NoteShareApp

- I developed this CSharp and MongoDB-based note-sharing platform where users can create, edit, and share notes. Users can search by school or department to join groups, categorize notes, and find shared content easily.
- Tools Used: CSharp, MongoDb, ASP. NET Core, HTML, CSS, JavaScript, Windsurf, Cursor

Courses And Certificates

- İnspimo Software Coaching Training
- Taner Çagli- English Language Certificate 🗹

Technologies _____

Languages: Java, JavaScript, CSharp, Python, SQL, Flutter

Technologies: .NET, Microsoft SQL Server, HTML, CSS, Bootstrap, Git, Github, MongoDb, Android Studio

AI Development Tools: Cursor, Windsurf, Replit
